SENATE RETAINS MAIL TUBE SYSTEM

Burleson's Motor Truck Idea for Cities by Vote of 45 to 25.

New Yorker Explains Peril of Streets and Calls Official Test Most Unfair.

WASHINGTON, Feb. 14.—The Senate voted 45 to 25 to-day to support the Senate Committee on Post Offices and Post CENTRAL HOLDERS eral Burleson in the matter of substituing motor service for pneumatic tubes in the five principal cities-New York. toston, Philadelphia, Chicago and St.

The appropriation for continuing the tubes was made, but it was specifically provided that the money should not be used for any other purpose, thus making the matter of retaining the tubes man datory. This drastic action was taken because the Senate had heard the Postmaster-General credited with the statement that he would not renew the contracts for the tubes even if Congress ap-

propriated enough for them.

The feature of the session to-day, all g which was devoted to the tube debate, was the speech of Senator Wadsworth. advisable that the tubes be retained.

Tr. Wadsworth attacked the commisappointed by the Postmaster-Gen eral to investigate the mail conditions in New York and compare the relative efficiency of the tube service with a otor service. This commission's report as made the basis of the Postmaster-General's recommendation for the aboli-tion of the tube service and substitution of motor trucks. Senator Wadawa-th eral, had their minds made up for them they ever began the investigation

Motor trucks with their large responsibility for the casualty list represent only 2 per cent. of the vehicular traffic. And yet Senators here argue for increasing the number of trucks in the streets of our largest clitics. Mail trucks are the worst offenders in the matter of injuries, for there is less personal responsibility in their operation.

P. S. Board, Motors and Railroads Agree on Improvements.

ALBANT, Feb. 14.—An agreement on a legislative programme has been reached between the up-State Public Service Commission and representatives of auto-mobile associations and railroad offimobile associations and railroad offi-cials. For more than a year the plans for improvement of conditions at grade crossings have been discussed.

It now has been decided to ask the Legislature for these amendments:

Hugh J. Reilly, who is said to have made a fortune building up Cuba's rail-road system and who in December with \$50,000. several others leased a square block north of the Grand Central station from the railroad company as a site for tall apartment house, is to make a notable improvement in Times Square. Mr. Reilly and associates have bought the northeast corner of Broadway and Fortyfifth street from Thomas B. Hidden, according to a well founded report, and
will erect on the site a tail building.
Warren & Wetmore are preparing the
plans for the improvement, which it is
said will be either eight or twelve stories
high. The building will be an office. Stockholders of the New York Central who had decided to exercise their right to subscribe to the proposed issue of \$25,000,000 of new common stock at par have received the privilege of withdraw-ing their applications provided they do so before March 1. This privilege was accorded by the railroad company in view of the fact that few stockholders availed themselves of the offer to take their share of the new stock with the present outstanding common stock selling in the market below par.

President A. H. Smith made the following announcement yesterday:

"When stockholders got the right to take their share of additional New York Central stock that stock was at a premium. The time within which subscriptions of the property for the last sixteen years. He has been asking \$2,000,000 for the property. To a buyer he was willing to give \$1,800,000 on mortgagand as a building loan. It is understood that the Reilly syndicate secured the property on very liberal terms. The property is opposite the New York Theatre block and diagonally across from the Hersl Attention. the Hotel Astor. At the Forty-seventh street corner of the block is the De Lacy property, which Sol Bloom bought recently at auction from Joseph P. Day. It is understood that Mr. Bloom plans to erect a tall building on this corner, which means the improvement of the two corners. means the improvement of the two corpers of the block at the same time. With the exception of the Palace Theatre, which adjoins the Bloom purchase, there is not a modern building in the Broadway frontage of the block.
